Government Structure

The **City of Miami**, the county seat for **Miami-Dade County**, operates under a “two-tier federation” form of government. The city government constitutes the “lower tier,” providing police and fire protection, zoning and code enforcement, and other typical city services; the county government constitutes the “upper tier,” which includes services such as emergency management, public housing, environmental services, and health care services.

The City of Miami has a mayor-commissioner system of government. Miami is governed by five city commissioners, each representing a city district, and a mayor. The City Commission is the legislative body of the government and is responsible for ordinances and policy-making. The city mayor appoints the city manager, who is the city’s chief administrative officer. The mayor has veto power over the City Commission’s legislative actions.

Miami-Dade County is governed by an executive county mayor and a 13 member Board of County Commissioners. The Board of County Commissioners, whose members are elected through district elections, is the governing body of the county government. The county mayor is responsible for the daily functions of the government and also has veto power over the County Commission action items. The Miami-Dade County Health Department is a local branch of the Florida Department of Health. The Health Department is run by a chief administrator and is under the jurisdiction of the Florida surgeon general. County health departments can develop policy at the community level to provide public health services and programs to their citizens.
